ABOUT

This typeface incorporates round smooth corners and distinct design elements in several characters like 'a, g, k, m', without compromising legibility. In order to retain its sharpness, inner corners as well as junction points were left steep. This is a balanced typeface which works very well in long texts at small point sizes. Since its first release it has been used in numerous magazines, advertising campaigns and corporate applications. Handbook Pro comes loaded with a number of special features. The family consists of 14 fonts -from black to extra thin- including true italics. It supports 21 special OpenType features like small caps, fractions, ordinals, etc. and offers multilingual support for all European languages including Greek and Cyrillic. There is also a set of very interesting stylistic alternates which can be used to add a refreshing flair to your designs. Finally, every font in this family has been completed with 270 copyright-free symbols, some of which have been proposed by several international organizations for packaging, public areas, environment, transportation, computers, fabric care and urban life.

Handbook is a trademark of Parachute®

Regardless of whether the nations continue to remain isolated as far as the territorial aspect is concerned or they become more distributed, the electronic contiguity will reinforce the cultural link between them. During the few decades that television became widespread, some cultural codes were transmitted, even to nations where electronic means of communication were explicitly forbidden. The breakup of the Soviet Union may have been affected by this factor more than we would think possible. Television presented several products and services worldwide, making people consider them common, if not to respect them consistently. Regardless of whether the nations continue to remain isolated as far as the territorial aspect is concerned or they become more distributed, the electronic contiguity will reinforce the cultural link between them. The breakup of the Soviet Union may have been affected by this factor more than we would think possible. Television presented several products and services worldwide, making people consider them common, if not to respect them consistently. Regardless of whether the nations continue to remain isolated as far as the territorial aspect is concerned or they become more distributed, the electronic contiguity will reinforce the cultural link between them. During the few decades that television became widespread, some cultural codes were transmitted, even to nations where electronic means of communication were explicitly forbidden. The breakup of the Soviet Union may have been affected by this factor more than we would think possible. Television presented several products

LIGATURES
Replaces a sequence of glyphs with a single glyph, creating a professional-looking text with no peculiar collisions among letters. This feature covers the standard f-ligatures, as well as few other ones used in normal conditions.

ff fi fl ffi ffl ft fj ffj ▸ ﬀ ﬁ ﬂ ﬃ ﬄ ﬆ ﬃ ﬃ

DISCRETIONARY LIGATURES
Replaces a sequence of glyphs with a single glyph. It differs from the previous feature in the fact that it activates special (non-standard) ligatures for Latin and Greek.

c/o George Lewis ▸ ℅ George Lewis
Y/O Νίκου Πετρίδη ▸ ℅ Νίκου Πετρίδη
α/α Νίκος Πετρίδης ▸ ℅ Νίκος Πετρίδης

SMALL CAPS
This feature formats lowercase text as small caps. These are not computer generated scaled-down versions of capitals, but rather glyphs which have been designed to match the weight and proportions of the rest of the family characters. They are often used in combination with oldstyle figures, for acronyms and abbreviations and stylistically at the beginning of a paragraph (this feature includes Latin and Greek small caps).

typography ▸ TYPOGRAPHY
τυπογραφία ▸ ΤΥΠΟΓΠΑΦΊΑ

SMALL CAPS FROM CAPITALS
Replaces capital glyphs with small caps (this feature includes Latin and Greek small caps).

TYPOGRAPHY ▸ TYPOGRAPHY
ΤΥΠΟΓΡΑΦΙΑ ▸ ΤΥΠΟΓΠΑΦΙΑ

OLDSTYLE FIGURES
Changes selected figures from the default lining to oldstyle i.e. numbers of varying height. These are appropriate for use with lowercase text. They come in two different styles: tabular and proportional. Tabular figures have equal widths (useful for tables, so that numbers line up from one line to the next) whereas proportional have varying widths and are basically used within a sentence.

2|7|6|0 ▸ 2|7|6|0
2760 ▸ 2760

LINING FIGURES
This feature changes selected figures from oldstyle to the default lining form.Lining figures are numbers which fit better with all-capital text and they are of the same height as capitals or a bit smaller. They also come in two different styles: tabular and proportional.

2760 ▸ 2760
2|7|6|0 ▸ 2|7|6|0

PROPORTIONAL FIGURES
Replaces selected figure glyphs which are set on tabular widths (lining or oldstyle), with corresponding glyphs set on proportional widths (lining or oldstyle).

2|7|6|0 ▸ 2760
2|7|6|0 ▸ 2760

TABULAR FIGURES
Replaces selected figure glyphs which are set on proportional widths (lining or oldstyle), with corresponding glyphs set on tabular widths (lining or oldstyle).

2760 ▸ 2|7|6|0
2760 ▸ 2|7|6|0

SUPERIORS
Replaces lining and oldstyle figures with superior figures and lowercase letters with superior letters. These superior glyphs are not computer generated scaled-down versions but are rather redesigned to match the weight of the regular glyphs. Superior figures are used mainly for footnotes and superior letters for abbreviated titles (this feature includes Latin as well as Greek superior letters)

footnote3 ▸ footnote^{3}
h2=x2+y2 ▸ $h^{2}=x^{2}+y^{2}$
Dr ▸ Dr Mme ▸ Mme

SCIENTIFIC INFERIORS
Replaces lining and oldstyle figures with inferior figures. They have been designed to match the weight of the regular glyphs and sit lower than the standard baseline. Used primarily for mathematical and chemical notations.

CO2 ▸ CO_2
H2O ▸ H_2O

NUMERATORS
Substitutes selected numbers (and basic punctuation) which precede a slash with numerator glyphs and replaces the typographic slash with the fraction slash.

253/ ▸ 253/
85,6/ ▸ 85,6/

DENOMINATORS
Substitutes selected numbers (and basic punctuation) which follow a slash with denominator glyphs and replaces the typographic slash with the fraction slash.

/253 ▸ /253
/85,6 ▸ /85,6

FRACTIONS
Figures separated by slash, are replaced with diagonal fractions.

5/8 ▸ 5⁄8
3/5 ▸ 3⁄5

ORDINALS
Contextually replaces default alphabetic glyphs which follow numbers with superscripted glyphs and the sequence 'No' with the numero character (No). This feature includes Latin as well as Greek lowercase and capital ordinals.

1st ▸ 1st 2nd ▸ 2nd 28th ▸ 28th
No ▸ №

ORNAMENTS/VARIOUS SYMBOLS
This feature may replace the bullet or other characters with any of the available ornaments/symbols. All of them are best accessed from the program's 'Glyphs Palette' when available. There is a total of 270 ornaments/symbols included for packaging, public areas, environment, transportation, computers, fabric care, urban life

→ ⏭ alu GR RU

CASE-SENSITIVE FORMS
Shifts punctuation marks up to work better with capital letters and lining figures since by default they sit lower to properly mix with lowercase characters.

[(HELLO)] ▸ [(HELLO)]
«ПРИВЕТ» ▸ «ПРИВЕТ»

STYLISTIC SET 1
A set of stylistic variant glyphs which replace certain standarded glyphs with alternate forms that are designed to work better within the text or add a certain flair to the page. This feature includes Latin as well as Greek alternates.

a ▸ ɑ e ▸ ϵ i ▸ ι j ▸ j r ▸ ɾ
aerial ▸ ɑeɾial electronic ▸ ϵlectɾonic
β ▸ ϐ ε ▸ ϵ ζ ▸ ς ι ▸ ι ξ ▸ ξ
γενικώς ▸ γενικώς αξιόπιστος ▸ αξιόπιστος

STYLISTIC ALTERNATES
Replaces non-standard glyphs with alternate forms purely for aesthetic reasons.

g ▸ g ĝ ▸ ĝ s ▸ ς

CAPITAL SPACING
Globally adjusts inter-glyph spacing for all capitals. This feature can be applied (opens up the space in-between them) when text is set all-capital in order to make it more legible.

PARACHUTE ▸ PARACHUTE

SLASHED ZERO
Replaces the regular form of zero with an alternate form which includes a slash through the counter. This is particularly useful when capitals are mixed with numbers in which case capital O may be difficult to distinguish from zero 0.

0 ▸ 0
20 OBJECTS ▸ 20 OBJECTS

ACCESS ALL ALTERNATES
All variations of a selected character are accessible with this feature from the glyph palette of all programs that support OT features.

2 ▸ 2 2 2 2 2 2
€ ▸ € € €

THE FOUNDRY

Parachute® is an independent award-winning type foundry. It landed in 1999, but it wasn't till 2001 that it started operating as a full-scale company. Since then, 13 designers have joined in to form a select group of open minded, free spirited individuals, all coming from diverse design fields.
Over the years, Parachute has built a strong network of valuable relationships with customers in Europe, United States, Canada, Asia and Australia. The year 2003 marked the beginning of a new era for Parachute with the release of an award-winning catalog. Since then an emphasis was placed on multilingual support and opentype technology.
Parachute has won several major international typeface design awards, including the red dot: grand prix 2012 for original typeface.
All Parachute fonts have been designed to offer multilingual support for major scripts such as Latin, Greek and Cyrillic. Latest entries support Arabic as well. For an updated profile please visit our website.

THE DESIGNER

Panos Vassiliou is a graduate of the University of Toronto with a major in Applied Science and Engineering. In his transition years from engineering to typography, he left his high-profile job, got involved with a theatre company, founded a design studio and pursued an academic career. A few years later he started a publishing company. He designs typefaces since 1993, including commercial fonts as well as commissions from international companies and organizations such as Bank of America, the European Commission, Samsung, Ikea, Financial Times, National Geographic. He is regularly invited as a guest speaker to conferences and seminars, to speak on typography and related topics. In 2008, he received a Gold Award from the European Design Awards, for the typeface families Centro Pro. The following year, he received three Awards for Excellence in Type Design from the International Type Design Competition 'Modern Cyrillic 2009' which was held in Moscow. In 2010 he received a Silver Award from the European Design Awards, for the typeface family Encore Sans Pro. The same year he received three awards from Granshan 2010 the 3rd International Eastern Type Design Competition. In 2011, his new series of typefaces Regal Pro was selected for the Creative Review Type Annual 2011. Subsequently Regal Pro won an award from the Communication Arts Annual Competition 2012, whilst Encore Sans Pro was nominated for the German Design Awards 2012. Most recently he received the prestigious red dot: grand prix 2012 for Regal Pro, which was also a nominee for the German Design Awards 2014.

BESPOKE FONTS FOR LIVING BRANDS

In an emerging global market, all major companies invest heavily on corporate branding and design as a means of differentiating themselves from competitors. A **custom corporate typeface** is equally important as it greatly influences the unconscious perception of the anticipated target audience. It reflects the essence of the brand, creates a consistent visual identity which strengthens the product and projects an attractive and easily perceived personality. At Parachute we offer original custom design, multilingual support and advanced typographic expertise. For over a decade, we have provided custom corporate font services to some of the most innovative designers and companies around the world. Our clientele includes advertising and branding agencies, broadcasting corporations, publishing houses, financial institutions and multinational corporations such as:
